Park seating is the one hard limit. The van holds fifteen including the driver and front passenger, and a teacher car holds five including the driver. With two teachers driving, the park takes **eighteen students**. Thursday sends High School with exactly eighteen, so that run has no spare seat. A third adult riding drops it to seventeen; a third adult driving a second car raises it to twenty-two.

How this works

SPACES
Lunch hall, the indoor hangout in the middle school area, and outside or the dance hall. Each holds up to thirty.

MONDAY
Every homeschooler is in performing arts, and performers eat separately, so only about ten non-performers are in the rotation.

THE PARK
One group each day, full-time students only. Homeschoolers stay on campus.

TEACHER AVAILABILITY
Dan is out Tuesdays and Mary is out Wednesdays. Evelyn and Charlotte each cover two days. Emily arrives at 1:00, after the rotation ends.

HOMESCHOOL GROUPS
The upper half and the lower half each stay together and join a full-time group. They are never split into smaller pieces.

PATROL
One teacher a day walks between the spaces rather than holding a group, covering gaps and transitions.
